N.3 - CAMPAIGN DELIVERY:

The design and build of a full funnel, whether this is on LinkedIn, Meta or Google Ads. Including: offer planning, landing pages, email sequences and omnipresent marketing (being all places to your audience, all the time).

This offer is a mix of one-to-one consulting time + key marketing deliverables, all to an agency level standard.

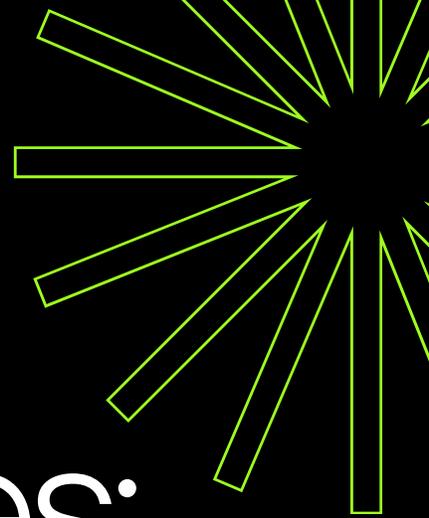

In the monthly coaching / consulting sessions, we will determine the right strategy together and give you the space, challenge and accountability to develop your ideas, see projects through to completion and move through the blocks and issues as they come up, creatively and with positive diligence.

I also push more in this vehicle. We want you out there, running the business as the chief sales and marketing officer, more so than simply delivering on your services, so you need some capacity to make this shift.

Level up, In Person includes:

In terms of the key marketing deliverables, I'm going to take a lot of it off your hands. I will need your input of course and we'll work together closely, but I will take the lead. I'll interview you to create the web content, for example, and we'd plan any video scripts and ad content together. But the lead, action and delivery? I'll do it, as if I was your marketing agency (just with an insane understanding of this world.)
